kaanpeeters.com
and
kaanpeeters.ch

– Homepage should be able to be set to German and English
– Got a logo that would be nice to have included
– Color combination a lot of black and the rest rainbow, can look a bit crazy

– Should be easy to update, also that I could add a larger part one day

– It would be good if the page could still be kept simple, like here for examplehttps://pablolienhard.com/

kaanpeeters.com

Divided into bio, pictures and upcoming events with links

kaanpeeters.com/quartet EN: kaanpeeters.com/quartet

Text about the quartet
Ability to link to Bandcamp and Spotify etc
Youtube link player to watch youtube videos straight on the website Pictures of the band members with each little bio
possibly a slide show of pictures

kaanpeeters.com/impros

Short text and link to impros.ch

kaanpeeters.com/schriften EN: kaanpeeters.com/writings

Various texts
It would be nice if they were arranged like squares on a chessboard, but all the same color, if you hold the mouse over it you can see the name of the text, clicking opens the PDF

kaanpeeters.com/shop

Possibility to link to Bandcamp and other small shop to mainly sell documents

kaanpeeters.com/kontaktEN: kaanpeeters.com/contact

contact details
